6th Z-SYSTEMS International Congress

29th and 30th of June 2018 · Valencia

Long-term experience – strong solutions
Dear Doctor,

The 6th International Z-SYSTEMS Congress is being held with the motto «Long-term experience – strong solutions».

After five years in Nice, our key Congress for ceramic implants is moving to the White City of Valencia. It is home to one of the most modern science and art exhibitions worldwide, thrilling visitors with an attractive historic center and its location on the ocean.

This makes Valencia the perfect place to host our top-notch continuing education program. Here we hope to inspire you with a multifaceted program, renowned presenters, and a Congress schedule packed with variety. And an innovation: We will be presenting to you our new bone level implant – get ready to be impressed.

Reap the benefits of a fascinating workshop on Friday morning – and be sure to book today in order to enjoy our early booker price. Of course, even in Valencia, you’ll still get to enjoy the usual cordial atmosphere of our Congresss.

We are looking forward to hosting you!
